Utilities:

Extensity - extension manager

Timer - Set timer for 1,5,10, or 30 minutes . click settings to edits times

1 click timer -- Visual timer

Play Timer for Kids - Duckie Deck Tools - timer to limit screen time - `

Break Timer - set timer to remind user to take a break (set length and frequency) and get notified via simple notification or a full screen break window-

Web Timer - keeps track of how you spend your time on the web

Goo.gl - URL shortener/QR code generator

Simple Undo Close - keep track of closed tabs for easy retrieval

Tab Scissors – splits window in two at desired tab

Tab Glue -puts all of your Chrome tabs together into one window with a single click.

Tab Cloud - Tab Cloud allows you to save any window session and restore it at a later date or on another computer.

Effectively allowing you to sync open tabs between multiple computers.

Awesome Screen Shot - save directly to google or save locally

HoverZoom - enlarges thumbnails and images with ease

Hangouts - begin a Hangout from your Browser

Keep Awake - prevent browser from going to sleep while presenting/teaching

Turn Off the Lights - everything other than video will fade to black

Simple QR Code Generator - creates QR code

MoveIt - set for time span - gives command for simple movement

Stay Focused - restricting the amount of time you can spend on time-wasting websites. Once your allotted time has

been used up, the sites you have blocked will be inaccessible for the rest of the day

Day Board - new tab page with a daily to do list to focus on your most important tasks each day

Academic:

Announcify -- read websites out loud

BeeLine Reader - uses color gradients to make reading faster and easier

Clean Print - cleans up websites for printing and save as pdf or to Drive

Readability - use to declutter websites

Clipped - summarizes websites into bullet points

Auto TextExpander -- setup keyboard shortcuts -

GNow Voice Search - say "ok google" to search by voice

Grammarly - checks grammar and spelling in gmail, facebook, Twitter, Tumbler and most other web sites, weekly emails with a summary of my writing.

Word Cloud Website Preview -- create a word wall from website

Highlight Keywords for google -- highlights searched word on results page

WikiWand - Experience a different visual interface for wikipedia

Google Dictionary - highlight word, click icon and definition appear (use Speak it to read out loud)

Checker Plus for Google Calendar - will read events aloud from calendar

Easy Bib - bibliography tool, assist with evaluating credibility of sites

Read and Write for Google - offers supports like text to speech, picture dictionary, highlighters and more

Text to Speech

Speakit! / I speech- reads highlighted text on web aloud

ChromeSpeak - APP! - Can select voice, rate , pitch and volume

Select and Speak - highlight and have read outloud

ChromeVox - designed for blind users

Read and Write for Google

Voice to Text
Read and Write for google (best in my opinion)

Voice Note -APP or Extension -- good voice recognition with editing features

Co:Writer Universal ($89 per student single copy)

Just for fun:
Honey - searches web for coupon codes , Amazon will automatically try codes

Black Menu for Google - add a picture video for accessing google services

APPS:

Pulsate - Could be used as simple cause/effect, Pulsate is a simple app which allows you to create musical patterns from randomly colliding circles. Sit back, watch the circles collide and listen to the evolving melodies.

Picto4Me -- App for creating picture based communication boards or visual schedules FREE

Natural Reader - APP! -- Can select voice and speed, copy and paste text into window

Typing Club - Touch Typing tool
Type Scout - touch typing tool
